

The Future Of Technology • Today.

Copper Systems

CAT 6 Solutions

Introduction

Brand Values & Philosophy

We strive every day to make Vericom the world's most desirable network infrastructure and connectivity solutions provider to work for and partner with. Our desire to be the best in our field by offering quality products with integrity is a driving force to provide our customers with product offerings that remain relevant throughout the ever-changing data technologies and communications community.

We offer "The Future Of Technology- Today."

Vericom® Copper Systems

Vericom's Copper Systems are designed to provide the highest level of performance possible at the best value. For your convenience, we offer two separate alternatives to suit your specific application.

VGS™ (Vericom Global Solutions)

Our full project solutions line, designed with the future of your business in mind. This line has been tested and certified to meet or exceed the most current industry standards and is guaranteed to stand the test of time.

VGC™ (Vericom Global Commodity)

Our global commodity line provides an economical price savvy solution, designed, tested and certified to suit current light commercial or residential applications.

Category 6 Solutions

Our VGS6™ Category 6 Cable supports 10GBASE-T Ethernet based on limited distances per the standard, 1000BASE-T (Gigabit Ethernet), 100BASE-T (Fast Ethernet), 155 Mb/s ATM, 622 Mb/s ATM, 1.2 Gb/s ATM, Digital video and broadband/baseband analog video, Voice over Internet Protocol (VoIP). Category 6 is backwards compatible with Category 5e systems as well as IEEE 802.3af/802.3at (48 cables in a bundle) and 802.3bt type 3 and type 4 (24 cables in a bundle) PoE applications.

Our line of Category 6 Solutions includes: Bulk Wire, Cable Assemblies, Patch Panels, Keystone Jacks, and Copper Cabling Accessories.

For more complete, detailed specifications and information on an individual product please request a specification sheet from a Vericom representative or visit our website at vericomsolutions.com.

VGS6™ Category 6 U/UTP Ethernet Cable

Vericom VGS6™ Category 6 U/UTP Ethernet Cable supports the most demanding current and future high-end environments such as data centers, server farms, digital and analog voice, high resolution video and data streaming and other demanding bandwidth intensive applications that require a class E solution with Power over Ethernet (POE+) capabilities.

We offer two variations of VGS6™ Category 6 U/UTP Ethernet Cable to suit your specific requirements:

VGS6™ Category 6 U/UTP LP-Certified Plenum Cable:

Vericom VGS6™ Category 6 Plenum Cable is designed to meet and exceed ANSI/TIA-568.2-D Category 6 and ISO 11801 Class E electrical performance requirements for frequencies up to 250MHz. The 1000ft pull box of cable is constructed with 23AWG solid conductors in a four pair configuration, separated with an integral cross filler to reduce crosstalk to provide maximum system performance. The conductor insulation and filler is FEP material with a PVC jacket. This Category 6 Cable is rated for plenum spaces and UL LP Listed for PoE applications.

Standards & Compliances

- ANSI/TIA-568.2-D
- EN 50173-1 Class E
- ISO/IEC 11801
- IEC 61156-5
- RoHS Compliant
- UL 444 LP-Rating 0.6A for PoE
- IEEE 802.3bt PoE Type 1 (15.4 Watts) formerly 802.3af, Type 2 (30 Watts) formerly 802.3at Type 3 (60 Watts), Type 4 (90 Watts)

VGS6™ Category 6 U/UTP Indoor / Outdoor Riser Cable:

Vericom VGS6™ Category 6 Indoor / Outdoor Riser Cable is designed to meet and exceed ANSI/TIA-568.2-D Category 6 and ISO 11801 Class E electrical performance requirements for frequencies up to 250 MHz to ensure interoperability with all standards compliant connectivity. This cable is constructed with 23AWG solid conductors in a four pair configuration, separated with an integral cross filler to reduce crosstalk to provide maximum system performance. The indoor / outdoor cable jacket is UV Resistant and is cold bend impact tested at -40° C per UL 444.

Standards & Compliances

- ANSI/TIA-568.2-D
- UL 1666 (Riser)
- ISO/IEC 11801
- UL 2556 (CMX)
- UL 444 Cold Impact Test Under -40° C
- UL 444 Sunlight Resistant
- GR-3164 Severe Cold Impact
- RoHS Compliant
- ANSI/TIA-1096-A (formerly FCC Part 68)
- IEEE 802.3af/802.3at and 802.3bt, Type 3 and Type 4 PoE Applications

VGS6™ Category 6 RJ45 Keystone Jacks

Vericom VGS6™ Category 6 UTP RJ45 Keystone Jacks support 1000BASE-T (Gigabit Ethernet), 100BASE-T (Fast Ethernet), 155 Mb/s ATM, 622 Mb/s ATM, 1.2 Gb/s ATM, Digital video and broadband/baseband analog video, Voice over Internet Protocol (VoIP) and are backwards compatible with Category 5e systems. Compatible with IEEE 802.3af/802.3at (48 cables in a bundle) and 802.3bt type 3 and type 4 (24 cables in a bundle) PoE applications.

These Category 6 UTP RJ45 Keystone Jacks meet and exceed ANSI/TIA-568.2-D Category 6 and ISO 11801 Class E electrical performance requirements for frequencies up to 250 MHz. These keystone jacks manage crosstalk, provide superior performance with headroom for even the toughest installs, and are EC verified (2020-828) to perform with a standard RJ-45 interface. For quick and easy termination, pair our VGS™ One Step Termination Tool, or VGC™ Deluxe 66/110 Type Punch Down Tool.

Standards & Compliances

CAT 6 Solutions

Keystone Jacks & Patch Panels

VGC™ Category 6 Unshielded RJ45 Keystone Jacks & Couplers

Vericom VGC™ Category 6 UTP RJ45 Keystone Jacks and Couplers support 1000BASE-T (Gigabit Ethernet), 100BASE-T (Fast Ethernet), 155 Mb/s ATM, 622 Mb/s ATM, 1.2 Gb/s ATM, Digital video and broadband/baseband analog video, Voice over Internet Protocol (VoIP) and are backwards compatible with Category 5e systems.

With an option of either our VGC™ Category 6 U/UTP Keystone Jacks or our Keystone Couplers, we are sure to have a solution to suit your specific requirements.

VGC™ Category 6 Unshielded RJ45 Keystone Jacks:

These Category 6 UTP RJ45 Keystone Jacks meet and exceed ANSI/TIA-568 C Category 6 and ISO 11801 Class E electrical performance requirements for frequencies up to 250 MHz. These keystone jacks are compatible with most manufacturers' faceplates, are easy to punch down, clearly labeled, and have A/B functionality. For quick and easy termination, pair with our VGC™ Deluxe 66/110 Type Punch Down Tool.

Standards & Compliances

- UL Listed
- IEC 61156-5
- TIA/EIA- T568A
- RoHS Compliant
- ISO/IEC 11801
- TIA/EIA-568.C
- TIA/EIA- T568B

VGC™ Category 6 Unshielded RJ45 Keystone Couplers:

These Category 6 UTP RJ45 Keystone Couplers meet and exceed ANSI/TIA-568 C Category 6 and ISO 11801 Class E electrical performance requirements for frequencies up to 250 MHz. These inline keystone couplers snap-in to unused keystone ports to create a pass-through connection with an RJ45 jack on both the front and rear for fast plug-in connections of patch cords to both sides. These couplers are compatible with most manufacturers' faceplates, surface mount boxes or patch panels.

Standards & Compliances

- ISO/IEC 11801
- TIA/EIA-568.C
- TIA/EIA- T568B
- IEC 61156-5
- TIA/EIA- T568A
- RoHS Compliant

CAT 6 Solutions

Keystone Jacks & Patch Panels

VGS6™ Category 6 Patch Panels

Vericom VGS6™ patch panels mount to all standard 19" racks, cabinets, and wall mount brackets, and are available in 24 Port (1 RU) and 48 Port (2 RU) (rack unit) configuration. Labels are provided with plastic covers for improved labeling durability.

These patch panels are available in two options to suit your specific data connectivity needs.

VGS6™ CAT 6 Unshielded Patch Panels:

These VGS6™ Patch Panels provide superior performance for data centers and other high-bandwidth intensive environments requiring a 1000BASE-T and PoE compatibility. These panels feature a standard RJ-45 interface, contacts with minimum 50 microinches of gold, a standard 110 punchdown for terminating horizontal cable, universal labeling for T568A and T568B wiring, and a removable cable support bar. These patch panels are capable of supporting PoE/PoE+ over 100 meter channels with 10 meters of 24 AWG patch cables included in the channel.

VGS™ Universal Modular Patch Panels:

These VGS™ Modular Patch Panels provide an interface between the horizontal cable and active electronics like switches in the telco room. These patch panels accept standard keystone modules including but not limited to Cat 5e, 6, 6A modules, HDMI, fiber optics, RCA modules, coax connectors, and more.

VGC™ Category 6 Patch Panels

Vericom VGC™ patch panels mount to all standard 19" racks, cabinets, and wall mount brackets, and are available in 12 Port (1 RU), 24 Port (1 RU) and 48 Port (2 RU) (rack unit) configuration.

These patch panels are available in two options to suit your specific data connectivity needs.

VGC™ CAT 6 Unshielded Patch Panels:

These VGC™ Patch Panels provide superior performance for data centers and other high-bandwidth intensive environments requiring a 1000BASE-T compatibility. These panels feature a standard RJ-45 interface and are compatible with the standard 568A and 568B wiring schemes with a color coded wiring diagram between the 110 punch down terminals on the back of the panel. These patch panels are designed for CAT 6 unshielded wiring, with clearly numbered ports and white blank labels to make cable organization easy. They are perfect for Ethernet, voice and data networking applications.

VGC™ Universal 24 Port Modular Unshielded Patch Panels:

These VGC™ Modular Unshielded Patch Panels accept standard keystone modules including but not limited to Cat 5e, 6, 6A modules, HDMI, fiber optics, RCA modules, coax connectors, and more. Modular patch panels are available in a 24 port 1 RU (rack unit) configuration.

28Flex™ Category 6 UTP Patch Cables

Vericom 28Flex™ Category 6 U/UTP patch cables support the most demanding current and future high-end environments such as data centers, server farms, digital and analog voice, high resolution video and data streaming and other demanding bandwidth intensive applications that require a class E solution with Power over Ethernet (POE+) capabilities.

These cables utilize 28 AWG stranded conductors in a four pair unshielded configuration for maximum durability and flexibility. 28Flex™ Patch Cables are rated CM, and meet applications up to 10 Gigabit Ethernet. This patch cable supports PoE/PoE+ over 92.5 meter channels with 10 meters of 28 AWG patch cables included in the channel, and supports PoE/PoE+ over 96 meter channels with 6 meters of 28 AWG patch cables included in the channel. The smaller diameter cable design reduces bundle sizes to improve airflow in high density applications to reduce cooling costs and potentially extend the life of active electronics

Standards & Compliances

- TIA/EIA-568.2-D
- IEC 61156-5
- ISO/IEC 11801
- Supports IEEE 802.3AF/802.3AT (48 cables in a bundle) and 802.3bt type 3 and type 4 (24 cables in a bundle) PoE applications)
- ANSI/TIA-1096-A (formerly FCC Part 68)
- UL 1863 and CAN/CSA-C22.2
- RoHS Compliant

VGC™ Category 6 UTP Patch Cables

Vericom VGC™ Category 6 Snagless Unshielded Patch Cables support and exceed 1000BASE-T (Gigabit Ethernet), 100BASE-T (Fast Ethernet), DSL, cable modem and telecommunications. These patch cables are backwards compatible with Category 5e systems.

These Category 6 Snagless Unshielded Patch Cables are designed to meet and exceed ANSI/TIA-568-C.2 Category 6 and ISO 11801 Class E electrical performance requirements for frequencies up to 250 MHz and are tested up to 550 MHz. The patch cables utilize 23AWG stranded copper conductors in a four pair unshielded configuration with a cross filler for reduced EMI and maximum durability. These patch cables are rated CM and meet and exceed 1000BASE-T Ethernet applications with RJ-45 modular plugs.

VGS™ One Step Termination Tool

Item No: NT1001

The ideal solution for terminating our VGS6™ CAT 6 Keystone Jacks, the VGS™ One Step Termination Tool saves time and improves accuracy by seating and terminating all wires simultaneously with a quick, easy squeeze of the handle. The integrated blade cuts and removes excess wire after seated in the connector, eliminating any need for extra trim steps. Built for simple one-handed operation, with an ergonomically designed handle for maximum grip and comfort, this termination tool minimizes hand fatigue and helps reduce installation stress.

VGC™ Deluxe 66 / 110 Punch Down Tool

This deluxe 66/110 type punch down tool enables you to terminate and trim cables effortlessly, to quickly and easily terminate our VGS6™ CAT 6 Patch Panels and Keystone Jacks. Impact absorbing grip reduces operator stress for installers with a high volume of terminations. Adjustable High/Low actuation setting accommodates their operator's preference.

VGC™ Modular Plug Tool

Ideal for use with our CAT 6 modular plugs, this heavy-duty modular crimping tool is the perfect solution when working with high performance, larger OD cables that are tougher to terminate due to larger wire gauges, thicker, harder insulation on the conductors, and pair-separating splines. This modular crimping tool was designed for the professional installer providing a high-leverage, ultra stable platform for consistent, repeatable terminations.

VGS™ Field Terminable CAT6 UTP Plug

Item No: MPG601

The ideal solution for terminating our VGS6™ CAT 6 UTP cable in the field, this Field Terminable Category 6 UTP Plug features a time-saving design that enables the user to terminate CAT 6 cable without any special tools in overhead spaces by simply inserting the conductors into the wire manager and then into the plug housing.

Available as a Bag of 50, these RJ45 modular unshielded connectors are designed to work specifically with CAT 6 cables. 22 - 24 AWG solid and stranded conductor cables are compatible with these modular connectors.

CAT 6 Solutions Shielded Components

Vericom VGC™ Category 6 shielded components include the same great features and specifications as our unshielded components, but with an additional level of foil screening or shielding for protection against electromagnetic interference from neighboring cables or components within a network. This line includes:

VGC™ Category 6 Shielded Riser Cable:

Item Number: MBW6F-00935

This Category 6 (F/UTP) Shielded Cable is applicable to non-plenum areas where cable is run between floors, and is designed to meet and exceed ANSI/TIA-568.2-D Category 6 and ISO 11801 Class E electrical performance requirements for frequencies up to 250 MHz to ensure interoperability with all standards compliant connectivity. The 1000ft spool of cable is constructed with 23AWG solid conductors, overall foil screened shielding, and differential twisted pairs separated with an integral cross filler reducing crosstalk to provide maximum system performance.

VGC™ Category 6 Shielded RJ45 Keystone Jack:

Item Number: MKJ6S-04496

This Category 6 UTP RJ45 Shielded Keystone Jack meets and exceeds ANSI/TIA-568 C Category 6 and ISO 11801 Class E electrical performance requirements for frequencies up to 250 MHz. This shielded keystone jack prevents EMI, making them ideal for use in today's high speed networks. These keystone jacks are compatible with most manufacturers' faceplates, are easy to punch down, clearly labeled, and have A/B functionality. For quick and easy termination, pair with our VGC™ Deluxe 66/110 Type Punch Down Tool.

VGC™ Category 6 Outdoor Shielded Waterproof Coupler:

Available in two lengths to suit your application, this Vericom Category 6 RJ45 shielded female waterproof connector is designed to connect two CAT6 shielded patch cords together, leaving a watertight connection rated to an IP67 industrial standard. It is ideal for harsh industrial or outdoor environments.

VGC™ Shielded Patch Panels:

VGC™ CAT 6 24 Port Shielded Patch Panels

Item Number: MPP6S-01364

Our **Category 6 FTP 24 Port Patch Panels** are offered in a 110 punch down block style to provide flexible, multi-purpose end connection solutions for communication connections. They are compatible with 568A and 568B wiring schemes with color coded wiring diagram on the back of the panel and are designed specifically for use with Category 6 shielded wiring. Clearly numbered fixed ports and white blank labels makes organizing cable runs easy. Perfect for ethernet, voice and data networking applications. These panels are designed to fit any standard 19 inch rack, cabinet or bracket.

VGC™ Universal Modular 24 Port Shielded Patch Panels

Item Number: MPPKS-04042

Additionally we also offer a **VGC™ Universal Modular 24 Port Shielded Patch Panel** for a more diversified plug and play network configuration. This patch panel accepts standard keystone modules including but not limited to Cat 5e, 6, 6A modules, HDMI, fiber optics, RCA modules, coax connectors, and more.

VGC™ Category 6 Shielded Patch Cables:

Vericom VGC™ Category 6 Snagless F/UTP Patch Cables support and exceed 1000BASE-T (Gigabit Ethernet), 100BASE-T (Fast Ethernet), DSL, cable modem and telecommunications. These patch cables are backwards compatible with Category 5e systems. This patch cable is constructed with 23AWG solid conductors, overall foil screened shielding, and differential twisted pairs separated with an integral cross filler reducing crosstalk to provide maximum system performance. Shielded RJ45 connectors with molded strain relief boots make these a perfect fit for your networking needs. *Available in limited lengths and colors.*

Cable Routing & Management Solutions

Ladder Rack

The VLR Series Cable Ladder Rack System mounts to the top of cabinets and open frame racks to provide overhead cable routing between aisles or across an open span. With a wide variety of accessories for mounting and connecting ladder sections, Vericom offers a complete and configurable solution that will keep your cable bundles organized and protected.

Wire Basket Tray

Vericom's Wire Basket Tray System is a highly configurable and adaptable cable runway solution designed to meet the needs of a variety of applications, from short cable runs in a data closet to high-density data center installations. Featuring a rigid construction and a corrosion resistant powder coated finish, our trays offer the strength and durability to protect valuable network communications cabling, simplify system extensions, and reduce the cost of maintenance.

Wall Mount Solutions

Vericom Wall Mount Solutions securely mount communications cabling, networking gear, and related accessories to a wall when floor space is at a premium. Designed for a variety of AV, IT, telecom, datacom, network, and security applications, they are the perfect choice for small work areas where a full server rack or cabinet isn't feasible or warranted. Our portfolio of solutions includes flat-packed, light duty cabinets, fully welded cabinets for high density installations that support up to 350 lbs., and open-frame wall mount racks and brackets for specialty installations.

For more details and available size options, visit our [website](#).

Featured Wall Mount Solutions

VW4 Series High Density Swing Out Wall Mount Cabinets

Built for heavy duty, large-scale applications, this cabinet has a fully welded 14 gauge steel frame that supports up to 350 lbs. of networking equipment. Features include a 90-degree swing-out hinge for easy access to cables and connections, heavy duty hinges and latches, and six knockouts in the top and bottom of the rear section for cable management flexibility. Available in two depths and four heights.

VW5 Series Wall Mount Racks

Vericom's Wall Mount Racks are a cost-effective solution for storing rackmount IT equipment in environments that don't require a lockable cabinet. The open frame design provides easy access to equipment with 18" of equipment depth and standard 19" mounting rails. This rack features 10-32 tapped holes with printed RU markings, and 16" keyhole spacing for mounting to a wall. Available in three heights. 8U and 15U offer a weight capacity of 150 lbs. 30U option holds up to 125 lbs.

VB2 Series Vertical Wall Mount Bracket

This Vertical Wall Mount Bracket allows servers and other networking equipment to mount vertically and flush to a wall, perfect for environments with limited space. Featuring a 75 lb. weight capacity, universal cage hole mounting and an opening in the rear panel for in-wall cable access, this bracket has the versatility to support a wide variety of equipment.

Floor Standing Solutions

Network & Server Cabinets

Vericom's VC5 Series Network and Server Cabinets provide an integrated, customizable solution for data center buildouts, network rooms, or IT closets. The feature-rich, robust design can be custom-configured with Vericom accessories pre-installed, speeding deployment and reducing on-site waste. Available as an open frame or complete enclosure in over 20 size combinations, with six door options and two colors to choose from, the VC5 platform offers the flexibility and versatility to meet the demands of a wide range of installation environments.

For additional information and a complete list of available options, please visit our [website](#).

Open Frame Racks

Vericom Open Frame Racks are a great solution for applications that don't require physical security or airflow control. The open design provides unobstructed airflow to keep equipment running cool, as well as fast and easy access to equipment when maintenance is required. Supporting up to 1,000 lbs. of equipment, Vericom racks provide a strong, stable, and durable structure made from high-quality aluminum and steel.

For additional information and available options, please visit our [website](#).

SOHO Cabinets

Designed for distributed networks and edge installations, Vericom SOHO cabinets are the perfect option for mounting and securing valuable IT equipment in remote locations where space is limited. Fully assembled and ready to deploy, they include all the features of a full-size server cabinet, conveniently sized to fit under or on top of a desk or counter.
