

F-81 Terminator Caps

Features & Benefits

- Universal “F” connection screws directly onto unused splitter ports, amplifier connections or cable TV outlets
- Helps eliminate TV signal problems like ghosting caused by open ports, splitters, or amplifiers
- Bulk packaged in bags of 100

Construction

Body Material: Zinc Alloy (Diecast)

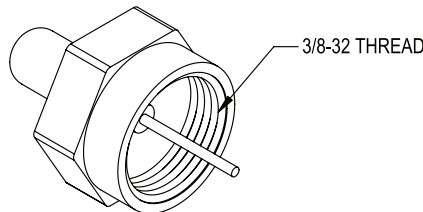

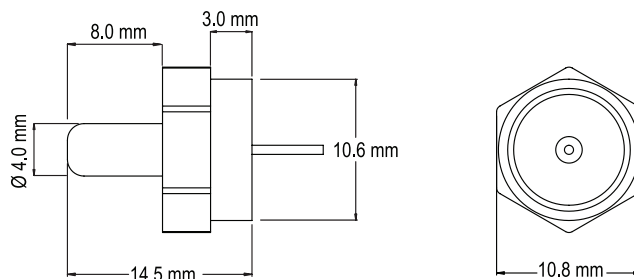

Insulator Material: Polypropylene (PP)

Electrical

Impedance: 75Ω

Power: ¼ Watt @ 25°C

Technical Illustration

Applications

The Vericom F-81 Terminator caps are for use on any unused splitter ports, amplifier ports, or unused cable TV outlets.

Description / Specifications

These F-81 Terminator caps close cable system connections, preventing ghosting and other TV signal problems. They work to keep strong signals from reflecting back and producing problems with TV picture quality or causing interference with nearby radio communications.
