VERICOM®

Residential & Commercial Building Solutions

Introduction

About Vericom

Industry Compliance

Built to meet or surpass industry standards for quality and performance, compliance is a top priority. With a history of meeting the challenges industry professionals face, Vericom is the relationship of choice for those customers in the pursuit of innovation.

Expertise for Every Project Phase

Vericom draws on experience helping thousands of customers worldwide with their network infrastructure and connectivity projects. Whether you need help in planning, designing or deploying your next project, Vericom can help. When customized solutions may be required, let Vericom provide a complete list of product and service options for review.

Brand Values & Philosophy

We strive every day to make Vericom the world's most desirable network infrastructure and connectivity solutions provider to work for and partner with. Our desire to be the best in our field by offering quality products with integrity is a driving force to provide our customers with product offerings that remain relevant throughout the ever-changing data technologies and communications community.

We offer "The Future Of Technology- Today."

Vericom® Copper Systems

Vericom's Copper Systems are designed to provide the highest level of performance possible at the best value. For your convenience, we offer two separate alternatives to suit your specific application.

VGS™ (**V**ericom **G**lobal **S**olutions)

Our full project solutions line, designed with the future of your business in mind. This line has been tested and certified to meet or exceed the most current industry standards and is guaranteed to stand the test of time.
VGC™ (**V**ericom **G**lobal **C**ommodity)

Our global commodity line provides an economical price savvy solution, designed, tested and certified to suit current light commercial or residential applications.

Residential & Commercial Building Solutions

Our Residential & Commercial Building Solutions include a wide array of products to suit your specific low voltage installation.

These solutions include: Bulk Wire, Cable Assemblies & Adapters, Flat Panel TV Mounts, Faceplates, and Installation Supplies & Accessories such as tools, cables clips, power supplies and more.

Industry Compliant Production Capabilities

Custom Configurations- Build To Suit

Global Logistics Network Capacity

For more complete, detailed specifications and information on an individual product please request a specification sheet from a Vericom representative or visit our website at vericomsolutions.com.

Category Cable Solutions

Choose Ethernet cable at Vericom that best fits your cabling and bulk wiring needs. Choose from CAT3, CAT5e, CAT6, CAT6a solid premise wiring. We offer bulk Ethernet cable in CM, CMR, CMX and CMP rated 1,000 ft. pull boxes and wooden reels. The majority of our Ethernet cable is RoHS compliant, UL-Listed and comes with a Lifetime Warranty.

CAT 3 Solutions

Category 3 Cable
(CM or CMX)

RJ14 Keystone Jack Modules

Standard Faceplates
(See options on page 12)

RJ14 Connectors

Reaching the peak of its popularity in the early 1990's, CAT-3 features a data rate of up to 10 Mbps and typically a max bandwidth of 16 MHz (our CAT-3 tests to 100MHz). This solution is a great option for data transmission in two-line telephone systems and older Ethernet installations.

For more information on our Category 3 solutions ask a vericom representative or view this solution on our website.

Introduced in 2001, CAT-5e is essentially an enhanced version of Category 5 cabling. Our Category 5e System supports 10BASE-T (Ethernet), 100BASE-T (Fast Ethernet), 1000BASE-T (Gigabit Ethernet), 155 Mb/s ATM, 622 Mb/s ATM, digital video, broadband/baseband analog video, and Voice over Internet Protocol (VoIP) for residential or commercial applications.

(Including Tools, Connectors, Keystone Faceplates & Specialty Inserts)

Unveiled in 2002, CAT 6 offers a higher signal-to-noise ratio, and performs better in environments with high levels of electromagnetic interference. Our Category 6 Cable supports 10GBASE-T Ethernet based on limited distances per the standard, 1000BASE-T (Gigabit Ethernet), 100BASE-T (Fast Ethernet), 155 Mb/s ATM, 622 Mb/s ATM, 1.2 Gb/s ATM, Digital video and broadband/baseband analog video, Voice over Internet Protocol (VoIP). Category 6 is backwards compatible with Category 5e systems as well as IEEE 802.3af/802.3at (48 cables in a bundle) and 802.3bt type 3 and type 4 (24 cables in a bundle) PoE applications.

For more information on our Category 6 solutions ask a Vericom representative, view our CAT6 Solutions Guide or check out our website.

2008 marked the arrival of CAT-6A, an augmented version of CAT-6. It supports twice the maximum bandwidth than that of CAT-6 and can maintain higher transmission speeds over longer cable lengths. Our Category 6A Solutions support 10GBASE-T Ethernet up to 100 meters per the standard, 1000BASE-T(Gigabit Ethernet), 100BASE-T (Fast Ethernet), 155 Mb/sATM, 622 Mb/s ATM, 1.2 Gb/s ATM, CDDI, ATM, Token Ring, Digital video and broadband/baseband analog video, Voice over Internet Protocol (VoIP). Category 6A is backwards compatible with CAT6 and Category 5e systems as well as IEEE 802.3af/802.3at and 802.3bt Type 3 and Type 4 for PoE applications.

VGC™ Media Cable

Vericom structured composite media cable provides a combination of cables under one tough jacket. This composite style cable enables faster installation times and protects against common improper mistakes such as exceeding bend radius, kinks, and inadvertent nicks and cuts. Our structured media cable meets ETL standards and is designed for use in residential structured wiring for horizontal wiring in LAN applications.

We offer 2 variations of this cable to suit your specific installation needs.

VGC™ 2 RG6 Quad & 2 CAT6 Structured Media Cable

This composite media cable includes (1) 18 AWG quad shield CM rated coaxial cable in black, (1) 18 AWG quad shield CM rated coaxial cable in white,(1) 23 AWG unshielded Category 6 CM rated cable in blue, and (1) 23 AWG unshielded Category 6 CM rated cable in gray. This cable is offered in 500 foot increments on a wooden spool in an overall blue PVC jacket.

VGC™ 2 RG6 Quad & 2 CAT5e Structured Media Cable

This composite media cable includes (1) 18 AWG quad shield CM rated coaxial cable in black, (1) 18 AWG quad shield CM rated coaxial cable in white,(1) 24 AWG unshielded Category 5e CM rated cable in blue, and (1) 24 AWG unshielded Category 5e CM rated cable in gray. This cable is offered in 500 foot increments on a wooden spool in an overall blue PVC jacket.

Need Cable management solutions for your project?

VGC™ Coaxial Cable

Coaxial cable is the preferred method of transmission for broadband services and most high-speed services, and is ideal for supporting RF, Satellite, CATV, CCTV and broadband modems. Our RG-6 coaxial cable utilizes an insulated central conductor and is perfect for low loss,high frequency applications such as CATV and satellite applications. RG-6 are typically fit with different types of connectors at each end.In CATV distribution, these are F connector style; in professional base band video, BNC connectors; and in consumer A/V uses, other than RF and CATV, RCA plugs.

We offer multiple variations of coaxial cable solutions to suit your specific installation. These offerings include:

VGC™ RG6 Economy Dual Shield CM Coaxial Cable

Vericom RG6 dual shield CCS coaxial cable is suitable for general single-story commercial building or residential installations, specifically in situations where a UL rating is not required. Features of this cable include a PVC jacket, aluminum foil shield and aluminum braid to reduce electrical and signal interference and a foam PE insulation to protect the center 18 AWG CCS conductor. This Non-UL Type CM cable is available in Reel-In-Box packaging.

VGC™ RG6 Dual Shield 60% CM Coaxial Cable

Vericom RG6 dual shield CCS coaxial cable is suitable for general single-story commercial building or residential installations that require a UL rated cable. Features of this cable include a PVC jacket, aluminum foil shield and aluminum braid *(60% coverage)* to reduce electrical and signal interference and a foam PE insulation to protect the center 18 AWG CCS conductor. This UL Listed Type CM cable is available in multiple types of packaging in 1,000 foot increments to fit what your installation requires.

VGC™ RG6 Quad Shield CM Coaxial Cable

Vericom RG6 quad shield CCS coaxial cable offers all of the great features of our UL rated Dual Shield Cable *(see above)* but with double the shielding for 95% coverage.

VGC™ RG6 Dual Shield 60% CMP Coaxial Cable

Vericom RG6 dual shield CCS coaxial cable is suitable for indoor plenum air-handling spaces in multi-story commercial building applications requiring a level of fire protection. Features of this cable includes an FR-PVC jacket, aluminum poly shield and aluminum braid *(60% coverage)* to reduce electrical and signal interference and a foam FEP insulation to protect the center 18 AWG CCS conductor. This ETL Listed Type CMP cable is available on a wooden spool.

VGC™ RG6 Quad Shield CMP Coaxial Cable

Vericom RG6 quad shield CCS CMP coaxial cable offers all of the great features of our ETL rated Dual Shield CMP coaxial cable *(see above)* but with double the shielding for 95% coverage.

VGC™ Fire Alarm Cable

Vericom FPLR unshielded fire alarm cable supports fire and signal protection devices and security systems with integrated fire alarm circuits. This cable is for use with Power Limited Systems multi-story commercial building or residential applications requiring a level of fire protection. Our fire alarm cable is approved for 300 volts, with a temperature range of 14°F to 167°F. This cable is FPLR compliant, meets UL 1666 standards and is designed for commercial installations in vertical floor-to-floor runs, where the length exceeds one story. This type of cable is applicable to fire protection devices, signal detection, security systems with integrated fire alarm circuits and more.

We offer 2 conductor or 4 conductor fire alarm cable to suit your specific installation needs.

VGC™ 2 Conductor Solid FPLR Unshielded Fire Alarm Cable

This 2 conductor unshielded fire alarm cable is offered in *18 AWG*, *16 AWG*, or *14 AWG* and is composed of 2 wires (Black, Red) inside a FPLR rated red jacket. This cable is offered in 1,000 foot increments. Packaging varies based on item.

VGC™ 4 Conductor Solid FPLR Unshielded Fire Alarm Cable

This 4 conductor unshielded fire alarm cable is offered in *18 AWG*, or *16 AWG* and is composed of 4 wires (Black, Blue, Brown, Red) inside a FPLR rated red jacket. This cable is offered in 1,000 foot increments. Packaging varies based on item.

For more details on NEC riser rated guidelines, please reference section 760-154(B) of the National Electrical Code ANSI/NFPA 70.

VGC™ Landscape Cable

Vericom Landscape Cable supports low voltage outdoor accent lighting, landscape lighting and security lighting applications. Our 2 conductor stranded low voltage landscape cable is offered in *12 AWG* (65 strand per conductor) or *10 AWG* (104 strand per conductor), and is composed of 2 very flexible high strand bare copper conductors within a sunlight resistant PVC insulation. This low-voltage landscape cable is ideal for use at temperatures from 4°F up to a maximum of 140°F and is approved for 150 volts.This direct burial cable is suitable for underground low energy circuit style environments and is available on a 500 ft wooden spool.

VGC™ Security Cable

Vericom security cable supports security and low power applications. This cable is ideal for access control, remote control, signaling, security systems, communications, surveillance, intercom/PA systems and sound/audio applications in multi-story commercial building or residential environments. Our security cable is approved for 300 volts, with a temperature range of 4°F to 167°F. This CMR CL3R cable meets UL 1666, and is designed for commercial installations in vertical floor-to-floor runs, where the length exceeds one story. This cable is offered in a 1,000 foot pull box to ease installation and storage.We offer multiple variations of security cable solutions to suit your specific installation.

VGC™ 2 Conductor Unshielded Stranded CMR Security Cable

This 2 conductor unshielded stranded security cable is offered in *22 AWG (SA222-01927)* or *18 AWG (SA182-01936)* and is composed of 2 stranded *(7 conductors per strand)* wires (Black, Red) inside an in-wall riser rated gray jacket.

VGC™ 2 Conductor Unshielded Solid CMR Security Cable

This 2 conductor unshielded solid security cable is offered in *22 AWG (SA222-03345)* and is composed of 2 solid bare copper wires (Black, Red) inside an in-wall riser rated gray jacket.

VGC™ 4 Conductor Unshielded Stranded CMR Security Cable

This 4 conductor unshielded stranded security cable is offered in *22 AWG (SA224-03349)* or *18 AWG (SA184-01939)* and is composed of 4 stranded *(7 conductors per strand)* wires (Black, Red, Green, White) inside an in-wall riser rated gray jacket.

VGC™ 4 Conductor Unshielded Solid CMR Security Cable

This 4 conductor unshielded solid security cable is offered in *22 AWG (SA224-01929)* and is composed of 4 solid bare copper wires (Black, Red, Green, White) inside an in-wall riser rated gray jacket.

VGC™ 6 Conductor Shielded Stranded CMR Security Cable

This 6 conductor shielded solid security cable is offered in *22 AWG (SA226-01933)* and is composed of 6 stranded *(7 conductors per strand)* wires (Black, Red, Green, White, Blue, Brown) inside an overall aluminum foil tape shield an in-wall riser rated gray jacket.

In addition to these options, we also offer the following siamese cable, ideal for CCTV installations specific to commercial or residential single story dwellings.

VGC™ RG-59 CCS Coax With 18/2 Siamese Cable

Available in black or white, This siamese cable is composed of a 20 AWG CCS 75 ohm coaxial cable conductor with a gas injected foam PE insulation with a 95% braid coverage for optimum signal protection and transmission, and two 18 AWG *(7 conductors per strand)* wires power cables, color coded (Black, Red) for ease of installation, inside a CM rated sunlight resistant PVC jacket utilizing a separation web.

VGC™ Speaker Cable

Vericom speaker cable offers the best quality, performance, and value in the custom installation industry. All our speaker wire is manufactured using the highest quality and purest oxygen free copper conductors; delivering optimum performance levels for even the most discriminating audiophile. Vericom stranded OFC speaker cable supports distributed audio installations for single story commercial or residential applications. This CM, CL3 rated cable is ideal for whole-house and home theater installation and is approved for up to 300 Volts.

We offer multiple variations of speaker cable solutions to suit your specific installation. These offerings include:

VGC™ 16 AWG 2 Conductor Stranded OFC Speaker Cable

This CM, CL3 rated, 16 AWG 2 conductor stranded speaker cable is composed of 2 very flexible 65 strand oxygen free copper conductors. This cable is constructed with inner tissue paper between jacket and conductors for easy jacket stripping to access individually insulated conductors. Black and red conductors utilize PVC insulation within a white PVC jacket. This cable is offered in a 500 foot pull box for ease of installation and storage.

VGC™ 14 AWG 2 Conductor Stranded OFC Speaker Cable

This CM, CL3 rated, 14 AWG 2 conductor stranded speaker cable is composed of 2 very flexible 105 strand oxygen free copper conductors. This cable is constructed with inner tissue paper between jacket and conductors for easy jacket stripping to access individually insulated conductors. Black and red conductors utilize PVC insulation within a white PVC jacket. This cable is offered in a 500 foot pull box for ease of installation and storage.

VGC™ 16 AWG 4 Conductor Stranded OFC Speaker Cable

This CM, CL3 rated, 16 AWG 4 conductor stranded speaker cable is composed of 4 very flexible 65 strand oxygen free copper conductors. This cable is constructed with inner tissue paper between jacket and conductors for easy jacket stripping to access individually insulated conductors. Black, red, green, and white conductors utilize PVC insulation within a white PVC jacket. This cable is offered in a 500 foot pull box for ease of installation and storage.

VGC™ 14 AWG 4 Conductor Stranded OFC Speaker Cable

This CM, CL3 rated, 14 AWG 4 conductor stranded speaker cable is composed of 2 very flexible 105 strand oxygen free copper conductors. This cable is constructed with inner tissue paper between jacket and conductors for easy jacket stripping to access individually insulated conductors. Black, red, green, and white conductors utilize PVC insulation within a white PVC jacket. This cable is offered on a 500 foot wooden spool for ease of installation and storage.

VGC™ Thermostat Cable

Vericom solid CL2R rated thermostat cable supports in-wall use and certain low-voltage applications. This cable is ideal for class 2 remote-control, signaling, and power-limited circuits and is suitable for in-wall installation in multi-story commercial building or residential environments.
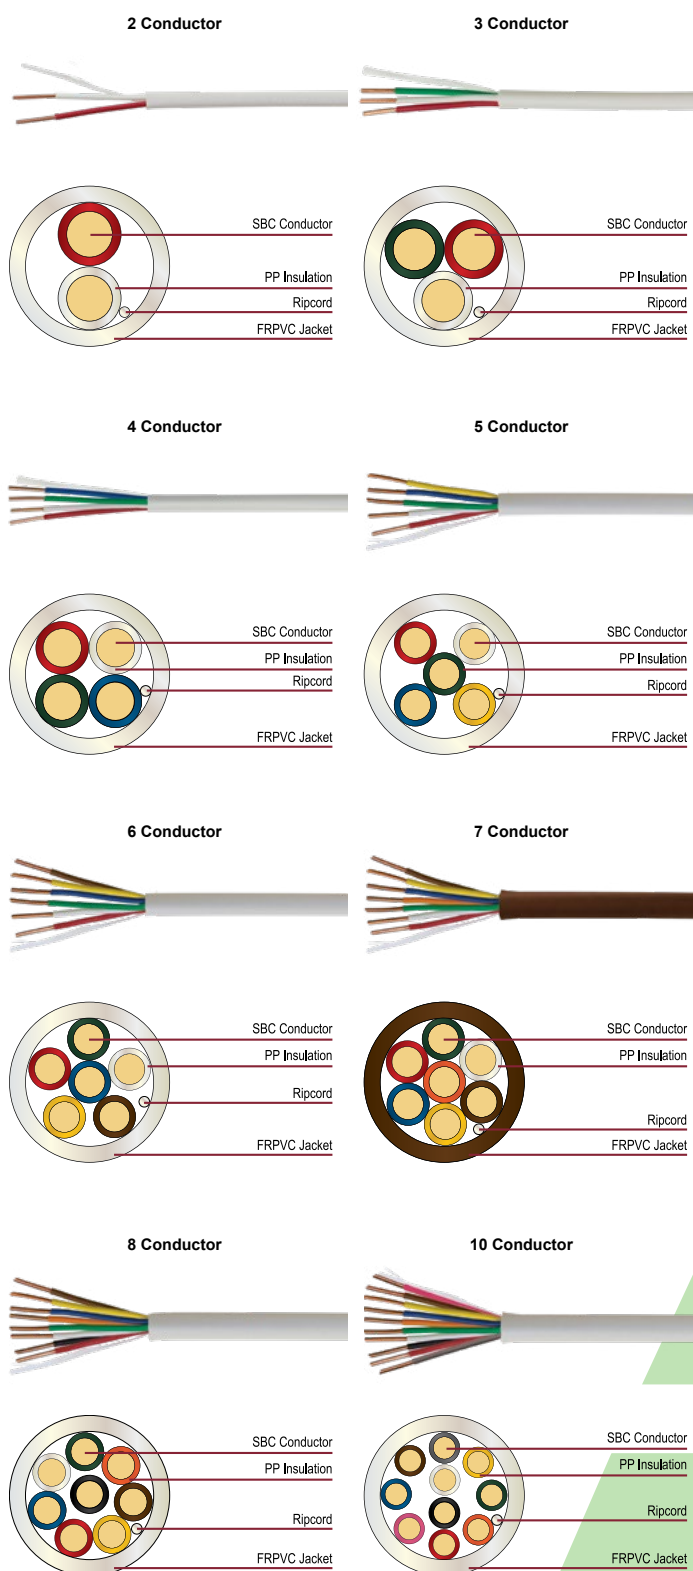

This solid CL2R rated thermostat cable is offered in 2, 3, 4, 5, 6, 7, 8, or 10 conductor, inside an In-Wall Riser rated jacket. This cable is approved for 150 volts and has a temperature range of 4°F to 140°F. Our thermostat cables are CMR and CL2R and meet UL 1685 Vertical Tray, which are perfect for commercial installation in vertical floor-to-floor runs, where the length exceeds one story.

Searching for a connector?

Vericom offers an array of solutions to suit your specific residential structured wiring installation. Our available connectors can be found on page 13.

Searching for Category Cable Couplers?

We offer Category 6 and Category 6A shielded waterproof couplers for outdoor applications.

For more information on these items check out our Category 5e, Category 6 or Category 6A Solutions Guides, ask a Vericom representative, or visit our website at vericomsolutions.com.

We offer a comprehensive line of high-quality TV wall mounts, engineered to the highest possible specification and designed to fit the latest generations of flat panel televisions. These lightweight, easy to install TV Mounts include pre-drilled VESA compliant holes and easy to follow instructions make installation straight forward.

We offer multiple variations of TV mounting solutions to suit your specific installation. These offerings include:

VGC™ Low Profile TV Mounts:

This type of mount is also called a "fixed" mount, and is ideal for situations where you would like to mount your TV flush to the wall. This Low Profile Mount is available in two sizes, for either *32" - 55" TVs (VMF55-04300)* or for *37" - 70" TVs (pictured above: VMF70-04301)*.

VGC™ Tilting TV Mounts:

This type of mount is the ideal solution for an environment where seating is designed to have the eyes of the viewers level with the middle or bottom of a flat panel TV. This tilting mount is available in three options, for either *32" - 55" TVs (VMT55-04302)*, for *37" - 70" TVs (pictured: VMT70-04303)*.

VGC™ Full Motion TV Mounts:

Our full motion wall mounts allow your flat-panel TV to extend, retract, pan, swivel and tilt to deliver the best viewing angle to every viewer in the room. This design allows for post-installation level adjustment enabling the TV to "roll" up to 3° clockwise and counterclockwise to ensure it is perfectly level. Our Full Motion TV Mount is available as a *37" - 70" TVs (pictured above: VMA70-04305)*.

VGC™ Universal Telescoping Ceiling Mount:

This full motion ceiling mount is the perfect solution for retail and commercial displays, offering 180° of swivel and a telescoping pole that can be dropped to different lengths. Our *Universal Telescoping Ceiling Mount (VMC42-04198)* includes advanced cable management features and a ceiling mount cover to ensure an elegant and tidy look. This mount offers the ultimate in versatility and universal compatibility for flat panel TVs 23" - 42".

In addition to our TV mount options, we offer the following ceiling mount, ideal for projector installations for classrooms, businesses or board rooms.

VGC™ Ceiling Mount For Projectors:

This easy to use ceiling mount offers 360° rotation and securely mounts projectors (up to 22 lbs) to the ceiling. Three support arms designed to fit a wide range of mounting holes allows for flexible projector positioning. The quick release connector enables the projector to be installed quickly and easily released for maintenance, without the need for continuous re-alignment. This *Ceiling Mount For Projectors (VMCPJ-04787)* also includes two different tubes that are included to accommodate for different height levels that may be needed.

VGC™ Standard & Midsize Single Gang Faceplates

| Single F-81 | Dual F-81 | Single F-81 & Telephone Combo | Single RJ-14 | Dual RJ-14 | Blank |

Our standard and midsize single gang faceplates are constructed of impact resistant, fire-retardant UL94V-0 rated plastic and are ideal for datacom, broadband or AV installations. These flush mount faceplates come complete with mounting screws.

We offer the following solutions to suit your needs:

VGC™ Single Gang F-81 Faceplate

Available as single or dual F-81 as standard or midsize, these single gang F-81 faceplates are ideal for most satellite, cable, and CCTV applications requiring a flush mount.

VGC™ F-81 and Telephone Single Gang Faceplate

Available as standard or midsize, these single gang combination faceplates are ideal for situations requiring a satellite, cable, and CCTV connection with a telephone connection.

VGC™ Telephone Single Gang Faceplate

Available as single or dual RJ-14 as standard or midsize, these single gang faceplates are suitable for use with RJ-11 or RJ-14 connectors and are ideal for use with CAT3 cabling.

VGC™ Blank Single Gang Faceplate

Available as standard size only, these single gang faceplates are suitable for installations requiring a finished look for unused junction boxes.

Also Available:

VGC™ Reversible Single Gang Cable Entrance Faceplate

Our reversible single gang cable entrance faceplates are molded out of proprietary impact resistant plastic and offer a professional finished look while providing organization for low voltage cables. These faceplates are available in white, are sold individually, and come complete with mounting screws.

VGC™ LED Lighting

LED Rechargeable Lithium Ion Headlamp

Item No: SLDHL-04593

LED Rechargeable Lithium Ion Work Light

Item No: SLDWL-04591

LED Remote Controlled Weatherproof Search Light

Item No: SLDSL-04590

Job site lighting provides bright, hands-free general lighting for work areas where natural light or existing fixtures are insufficient. Also known as work lights, they are either freestanding or can be temporarily mounted to supply ample light right where it's needed. They're commonly used at construction, maintenance, and repair jobsites.

We offer three variations of LED lighting solutions to suit your specific installation. These offerings include:

VGC™ LED Rechargeable Lithium Ion Headlamp

Our headlamp is lit by the CREE XM-L2 LED and produces up to 1800 Lumens. This *LED Rechargeable Lithium Ion Headlamp* is designed for cable installers, construction workers, do-it-yourself projects and anyone looking for a high-output headlamp.Powered by a built-in Lithium-ion rechargeable battery pack, the sleek, water-resistant design uses aircraft-precision aluminum that features an anodized, anti-abrasive finish for years of use.

VGC™ LED Rechargeable Lithium Ion Work Light

Our *LED Rechargeable Lithium-Ion Work Light* floods your work space with a brilliant and bright 900 lumens of light. This Work Light features a durable powder coated finish, adjustable mount, and magnetic feet to ensure you get light where you need it most. Additionally, this LED Rechargeable work light is weatherproof, rechargeable via an included Lithium-Ion battery, and maintains constant light output until the battery is drained.

VGC™ LED Remote Controlled Weatherproof Search Light

Our *LED Remote Controlled Weatherproof Search Light* generates a 2,520 lumen light beam that reaches over 900 feet in distance. Features include a strong magnetic base, weatherproof construction, a wireless remote pan and tilt control, a single portable handheld remote control, and a housing in a durable black finish. This LED weatherproof search light and remote control operates with 12V DC.

Lose your remote control for your VGC™ LED Remote Controlled Weatherproof Search Light?

For your convenience, We offer a *Replacement Remote Control.* This remote control is specific for use with the LED Remote Controlled Weatherproof Search Light and cannot be used with other products.

VGC™ Surge Protectors

**6-Outlet Surge Protector
with Right Angle Outlets**
(3 foot cord)

Item No: PWR06-04029

**6-Outlet Surge Protector
with Inline Outlets**
(4 foot cord)

Item No: PWR06-03716

Intended for indoor use only, our UL listed 6-outlet surge protectors are capable of 150 Joules of surge suppression, and include a lighted On/Off switch with an integrated 15A circuit breaker, and a heavy duty power cord. These surge protectors offer a slim profile, and include recessed screw cavities for mounting or hanging on a wall, making them perfect for discreet installations. They are ideal for protecting computers, printers, DVD players, stereos, cell phone chargers, and other home electronics and small appliances against lightning strikes and other power surges.

We offer two different surge protectors to suit your needs:

VGC™ 6-Outlet Surge Protector - 3 ft.

This surge protector features 6 surge-protected right angle outlets, and a 3 foot heavy-duty grounded power cord.

VGC™ 6-Outlet Surge Protector - 4 ft.

This urge protector features 6 surge-protected inline outlets, a 4 foot heavy-duty grounded power cord, and is packaged for individual resale.

Available in a 60 foot roll, our electrical tape is a crucial factor in most electrical installations, repairs and manufacturing projects. We offer two types to suit your specific needs:

VGC™ 3 Prong C13 Power Cords

These UL listed black computer power cords with 18 AWG wiring, have 3-pin female (IEC-320-C13) to 3 prong male (NEMA 5-15-P) connections and are designed to work with most PC computers, printers, monitors and other devices. Our *3 Prong C13 Power Cords* are available in multiple lengths to suit your installation and to help minimize cable clutter.

Style B

Style C

VGC™ 12VDC Power Supply Wall 100-240 VAC

Our power supplies are designed to meet a number of critical parameters, including those for input voltage, output voltage, output power, output connector size and for specific types of adapter use. These adapters meet the U.S. Department of Energy standards for Level VI efficiency, are UL Listed, and are tested for performance and reliability. Our adapters are designed to meet the specific requirements of the devices being powered, are output short-circuit protected and are built for maximum longevity. These power adapters are ideal for use with a variety of electronic devices, including modems, converters, eMTA, gateways, routers and set-top boxes. Our Level VI wall power adapters offer an input voltage of 100-240 VAC with an output voltage of 12 VDC and are intended for use in the United States only.

Style A		
Item Number	**Output Current**	**Pin Size**
XPSAD-04837	*1.0 AMPS*	*2.5 ID / 5.5 OD*

Style C		
Item Number	**Output Current**	**Pin Size**
XPSAD-05331	*4.0 AMPS*	*2.1 ID / 5.5 OD*
XPSAD-11394	*4.0 AMPS*	*2.5 ID / 5.5 OD*

Note: Image (Style C) to the left is representative of power supply body style for the above item numbers. Connector may differ based on choice of pin size / style.

## Cable Routing & Management Solutions

Ladder Rack

The VLR Series Cable Ladder Rack System mounts to the top of cabinets and open frame racks to provide overhead cable routing between aisles or across an open span. With a wide variety of accessories for mounting and connecting ladder sections, Vericom offers a complete and configurable solution that will keep your cable bundles organized and protected.

*For more information, please visit our **website**.*

Wire Basket Tray
Vericom's Wire Basket Tray System is a highly configurable and adaptable cable runway solution designed to meet the needs of a variety of applications, from short cable runs in a data closet to high-density data center installations. Featuring a rigid construction and a corrosion resistant powder coated finish, our trays offer the strength and durability to protect valuable network communications cabling, simplify system extensions, and reduce the cost of maintenance.

Wall Mount Solutions

Vericom Wall Mount Solutions securely mount communications cabling, networking gear, and related accessories to a wall when floor space is at a premium. Designed for a variety of AV, IT, telecom, datacom, network, and security applications, they are the perfect choice for small work areas where a full server rack or cabinet isn't feasible or warranted. Our portfolio of solutions includes flat-packed, light duty cabinets, fully welded cabinets for high density installations that support up to 350 lbs., and open-frame wall mount racks and brackets for specialty installations.

For more details and available size options, visit our **website**.

Featured Wall Mount Solutions

VW4 Series High Density Swing Out Wall Mount Cabinets

Built for heavy duty, large-scale applications, this cabinet has a fully welded 14 gauge steel frame that supports up to 350 lbs. of networking equipment. Features include a 90-degree swing-out hinge for easy access to cables and connections, heavy duty hinges and latches, and six knockouts in the top and bottom of the rear section for cable management flexibility. Available in two depths and four heights.

VW5 Series Wall Mount Racks

Vericom's Wall Mount Racks are a cost-effective solution for storing rackmount IT equipment in environments that don't require a lockable cabinet. The open frame design provides easy access to equipment with 18" of equipment depth and standard 19" mounting rails. This rack features 10-32 tapped holes with printed RU markings, and 16" keyhole spacing for mounting to a wall. Available in three heights. 8U and 15U offer a weight capacity of 150 lbs. 30U option holds up to 125 lbs.

VB2 Series Vertical Wall Mount Bracket

This Vertical Wall Mount Bracket allows servers and other networking equipment to mount vertically and flush to a wall, perfect for environments with limited space. Featuring a 75 lb. weight capacity, universal cage hole mounting and an opening in the rear panel for in-wall cable access, this bracket has the versatility to support a wide variety of equipment.

Floor Standing Solutions

Network & Server Cabinets

Open Frame Racks

Vericom Open Frame Racks are a great solution for applications that don't require physical security or airflow control. The open design provides unobstructed airflow to keep equipment running cool, as well as fast and easy access to equipment when maintenance is required. Supporting up to 1,000 lbs. of equipment, Vericom racks provide a strong, stable, and durable structure made from high-quality aluminum and steel.

For additional information and available options, please visit our website.

SOHO Cabinets

Vericom's VC5 Series Network and Server Cabinets provide an integrated, customizable solution for data center buildouts, network rooms, or IT closets. The feature-rich, robust design can be custom-configured with Vericom accessories pre-installed, speeding deployment and reducing on-site waste. Available as an open frame or complete enclosure in over 20 size combinations, with six door options and two colors to choose from, the VC5 platform offers the flexibility and versatility to meet the demands of a wide range of installation environments.

For additional information and a complete list of available options, please visit our website.

Designed for distributed networks and edge installations, Vericom SOHO cabinets are the perfect option for mounting and securing valuable IT equipment in remote locations where space is limited. Fully assembled and ready to deploy, they include all the features of a full-size server cabinet, conveniently sized to fit under or on top of a desk or counter.

For additional information and available size options, please visit our website.
