VERICOM®

F-81 Keystone Modular Insert

Features & Benefits

- Pre-installed nickel-plated zinc alloy standard "F" connector

- Provides a clean finished appearance

- For Satellite TV, Cable TV and CCTV applications

- Modular snap-in/out design for temporary or long-term applications

- Impedance: 75 Ohms

- Maximum Frequency: 1.5 GHz

- Allows for mixed media installs in faceplates and patch panels

- Available in White, Ivory or Light Almond

Applications

These F-81 keystone modular inserts snap-in to an open keystone port to create quick and easy connectivity for most satellite, cable, and CCTV applications.

Description / Specifications

Vericom F-81 keystone modular inserts are molded out of proprietary impact resistant plastic and include a pre-installed F-81 connector. These modular inserts provide quick connection and support for a single F-81 coaxial cable connection. These inserts are designed to easily snap-in to a standard keystone port and are sold individually.
